25X1

2. The power plant is 150 meters south of a movie house, bar, and bakery. It is southwest of three 2-story dormitories for workers, single-family houses for workers, and a church. It is 100 meters west of the Sveti Georgi coal pit and 40 meters west of a repair shop servicing the narrow gauge railway, and of the coal pits. The plant is 200 meters west of a synthetic fuel plant (see Appendix for a sketch of these installations).
3. The power plant is located in a building 100 by 80 meters in size. The offices of the plant are located in a building to the south of the plant. There are two wood and two concrete conical cooling towers, 20 feet high, located north of the power plant.

APPENDIX -- Sketch of the Cherno More Thermoelectric Plant.
